The accompanying notes are an integral part of these condensed consolidated interim financial statements.

1. Nature of Operations and Going Concern

Salazar Resources Limited (the "Company") was incorporated on July 23, 1987 under the provisions of the Company Act (British Columbia). The Company is listed and traded on the TSX Venture Exchange ("TSXV") under the symbol "SRL". The Company's principal office is located at #1305 - 1090 West Georgia Street, Vancouver, British Columbia V6E 3V7 Canada.

The Company is a junior mineral exploration company currently engaged in the acquisition and exploration of mineral properties located in Latin America. On the basis of information to date, the Company has not yet determined whether these properties contain economically recoverable ore reserves. The underlying value of the exploration and evaluation assets is entirely dependent on the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete development and upon future profitable production. Exploration and evaluation assets represent costs incurred to date, less amounts depreciated and/or written off, and do not necessarily represent present or future values.

The Company's material mineral properties are located in Ecuador and consequently the Company is subject to certain risks, including currency fluctuations and possible political or economic instability which may result in the impairment or loss of mining title or other mineral rights, and mineral exploration and mining activities may be affected in varying degrees by political stability and governmental regulations relating to the mining industry.

These condensed consolidated interim financial statements have been prepared on a going concern basis. As at September 30, 2014 the Company had a working capital deficit of $571,955 and an accumulated deficit of $19,562,403. The Company has not yet produced any revenues from its resource interests and further funds will be required to fund existing levels of overhead, planned exploration expenditures and property payments over the course of the next twelve months. In addition, exploration activities may change due to ongoing results and recommendations, or the Company may acquire additional properties, which may entail significant funding or exploration commitments. In August 2014 the Company entered into an agreement to advance the exploration and development of its Curipamba Project, as described in Note 6(a). There can be no assurances that the Company will be able to finalize a definitive agreement to finance the Curipamba Project. If the Company is unable to raise the necessary capital and generate sufficient cash flows to meet obligations as they come due, the Company may have to reduce or curtail its operations or obtain financing at unfavourable terms. The material uncertainty may cast significant doubt about the Company's ability to continue as a going concern. Furthermore, failure to continue as a going concern would require the Company's assets and liabilities be restated on a liquidation basis which would differ significantly from the going concern basis. These condensed consolidated interim financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern.

2. Basis of Preparation

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, *Interim Financial Reporting* ("IAS 34"), as issued by the International Accounting Standards Board ("IASB"), and its interpretations, using accounting policies consistent with International Financial Reporting Standards ("IFRS"). The condensed consolidated interim financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2013, which have been prepared in accordance with IFRS as issued by the IASB and interpretations of the IFRS Interpretations Committee ("IFRIC"). The accounting policies followed in these condensed consolidated interim financial statements are consistent with those applied in the Company's consolidated financial statements for the year ended December 31, 2013.

Basis of Measurement

The Company's condensed consolidated interim financial statements have been prepared on the historical cost basis except for the revaluation of certain financial assets and financial liabilities to fair value.

During fiscal 2013 management determined that there were impairment indicators present with the drill rig and equipment and, as a result, carried out an impairment test. This test compared the carrying value of the drill rig and equipment at the reporting date with the estimated fair value less costs of disposal. The estimated fair value less costs of disposal was based on Level 2 inputs which uses quoted prices for similar assets in markets that are not active. As a result of the test an impairment of $172,735 was recognized in fiscal 2013 on the drill rig and equipment.

(a) Curipamba Project, Ecuador

The Company owns a 100% interest in seven concessions located in the provinces of Bolivar and Los Rios, Ecuador.

During August 2014 the Company entered into a letter of intent ("LOI") with Guangshou Group Co. Ltd. ("Guangshou"), a privately owned mining company based in China, to develop the Curipamba Project. Under the LOI, Guangshou agreed to purchase 4,545,455 units of the Company at $0.22 per unit, with each unit consisting of one common share of the Company and one-half of a share purchase warrant. Thereafter, subject to finalizing the definitive agreement, Guangshou can earn up to a 60% interest in the Curipamba Project by providing $50,000,000 of development costs to bring the project into production, in accordance with medium scale mining laws of Ecuador, within three years of receipt of necessary development permits. If development costs exceed $50,000,000, then Guangshou has agreed to provide the Company's share of required funding by way of loans, to be repaid with interest, from production profits. The definitive agreement will include other standard clauses for agreements of this type including necessary adjustments based on final development costs.

6. Exploration and Evaluation Assets (continued)

In addition, once the definitive agreement is finalized, Guangshou has agreed to provide ongoing corporate funding to the Company by participating in future private placements of the Company of $1,000,000 per year over the next three years. In addition Guangshou will, on signing of the definitive agreement, reimburse the Company $500,000 for certain payments previously made by the Company and to also reimburse the Company for any project related costs between date of the LOI and finalizing the definitive agreement.

As at September 30, 2014 the Company has received an initial funding of $500,000 from Guangshou which has been recorded as share subscriptions received. See also Note 13.

(b) Ruminahui Project, Ecuador

The Company owns or has a right to acquire a 100% interest in two concessions located in the province of Pichincha, Ecuador. One concession, the Moncayo concession, is being acquired pursuant to an option agreement. As at September 30, 2014 there remains US $50,000 of option payments outstanding.

(c) Santiago Concession, Ecuador

The Company holds a 100% interest in a concession (the "Santiago Concession") located in the province of Loja, Ecuador. The Santiago Concession is subject to a 1.5% net smelter return royalty ("NSR"). The Company may purchase a 0.75% NSR upon payment of US $850,000.

(d) Mendez Project, Ecuador

The Company owns a 100% interest in two concessions in the province of Morona Santiago, Ecuador.

(e) Other, Colombia

The Company holds mineral concessions and has applied for additional concessions located in the department of Narino, Colombia. The Company is awaiting government approval.

7. Share Capital

(a) *Authorized Share Capital*

The Company's authorized share capital consisted of an unlimited number of common shares without par value. All issued common shares are fully paid.

(b) *Reconciliation of Changes in Share Capital*

(i) On June 5, 2014 the Company completed a first-tranche closing of a non-brokered private placement financing of 4,247,943 units of the Company at $0.22 per unit for gross proceeds of $934,547. On July 18, 2014 the Company completed a final closing of the private placement and issued 854,500 units for gross proceeds of $187,990. Each unit consisted of one common share and one-half share purchase warrant. Each whole warrant entitles the holder to purchase one additional common share at a price of $0.35 per share for a period of eighteen months from the dates of closing.

Director and officers of the Company purchased 1,256,970 units of this private placement.

The Company incurred $6,362 for filing fees associated with this private placement.

(Unaudited - Expressed in Canadian Dollars)

7. Share Capital (continued)

(ii) Effective March 12, 2013 the Company entered into an investment and participation agreement (the "Urion Agreement") with Urion Mining International B.V., a wholly-owned subsidiary of Trafigura Beheer B.V. (together referred to as "Urion"), under which Urion agreed to provide funding to assist the Company with the advancement of the El Domo Property at the Curipamba Project to the production stage.

The Urion Agreement provided for a series of investments, with the first being completed in March 2013 in a private placement of 2,500,000 units of the Company at a price of $0.40 per unit for total gross proceeds of $1,000,000. Each unit consisted of one common share of the Company and one-half of a share purchase warrant. Each full warrant entitles Urion to purchase an additional common share of the Company at a price of $0.50 per share expiring September 22, 2014.

In May 2013 the Company announced a further private placement of units of the Company at a price of $0.22 per unit, each unit consisting of one common share of the Company and one-half of a share purchase warrant. Each full warrant entitles the holder to purchase an additional common share of the Company for a period of 18 months from closing at a price of $0.35 per share. In June 2013 the Company completed the first tranche of this private placement with Urion purchasing 4,545,455 units for $1,000,000, comprising of 4,545,455 common shares and 2,272,727 warrants, expiring December 6, 2014. In September 2013 the Company completed the final tranche of this private placement and issued 2,555,086 units for $562,119, comprising of 2,555,086 common shares and 1,277,538 warrants, expiring March 16, 2015. Directors and officers of the Company purchased 1,905,400 units of this private placement.

The Company incurred $107,771 for legal and filing costs associated with the private placements.

In April 2014 a mutual decision was made with Urion to terminate the Urion Agreement.

10. Financial Instruments and Risk Management

Categories of Financial Assets and Financial Liabilities

Financial instruments are classified into one of the following four categories: fair value through profit or loss ("FVTPL"); held-to-maturity investments; loans and receivables; and available-for-sale. The carrying values of the Company's financial instruments are classified into the following categories:

Financial Instrument	Category	September 30, 2014 $	December 31, 2013 $
Cash	FVTPL	142,855	177,745
Amounts receivable	Loans and receivables	6,764	6,462
Investment	Available-for-sale	3,698	5,437
Accounts payable and accrued liabilities	Other liabilities	(615,749)	(560,746)
Advances	Other liabilities	(281,580)	(193,157)

(Unaudited - Expressed in Canadian Dollars)

10. Financial Instruments and Risk Management (continued)

The Company's financial instruments recorded at fair value require disclosure about how the fair value was determined based on significant levels of inputs described in the following hierarchy:

Level 1 - Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and value to provide pricing information on an ongoing basis.

Level 2 - Pricing inputs are other than quoted prices in active markets included in Level 1. Prices in Level 2 are either directly or indirectly observable as of the reporting date. Level 2 valuations are based on inputs including quoted forward prices for commodities, time value and volatility factors, which can be substantially observed or corroborated in the market place.

Level 3 - Valuations in this level are those with inputs for the asset or liability that are not based on observable market data.

The recorded amounts for amounts receivable, accounts payable and accrued liabilities and advances approximate their fair value due to their short-term nature. The Company's cash and investment under the fair value hierarchy are measured using Level 1 inputs.

The Company's risk exposures and the impact on the Company's financial instruments are summarized below:

Credit Risk

Credit risk is the risk of loss associated with a counterparty's inability to fulfill its payment obligations. The Company's credit risk is primarily attributable to cash and amounts receivable. Management believes that the credit risk concentration with respect to financial instruments included in cash and amounts receivable is remote.

Liquidity Risk

Liquidity risk is the risk that the Company will not have the resources to meet its obligations as they fall due. The Company manages this risk by closely monitoring cash forecasts and managing resources to ensure that it will have sufficient liquidity to meet its obligations. All of the Company's financial liabilities are classified as current and are anticipated to mature within the next fiscal period. The following table is based on the contractual maturity dates of financial assets and the earliest date on which the Company can be required to settle financial liabilities.

	Contractual Maturity Analysis at September 30, 2014				
	Less than 3 Months $	3 - 12 Months $	1 - 5 Years $	Over 5 Years $	Total $
Cash	142,855	-	-	-	142,855
Amounts receivable	6,764	-	-	-	6,764
Investment	-	-	3,698	-	3,698
Accounts payable and accrued liabilities	(615,749)	-	-	-	(615,749)
Advances	(281,580)	-	-	-	(281,580)

10. Financial Instruments and Risk Management (continued)

	Contractual Maturity Analysis at December 31, 2013				
	Less than 3 Months $	3 - 12 Months $	1 - 5 Years $	Over 5 Years $	Total $
Cash	177,745	-	-	-	177,745
Amounts receivable	6,462	-	-	-	6,462
Investment	-	-	5,437	-	5,437
Accounts payable and accrued liabilities	(560,746)	-	-	-	(560,746)
Advances	(193,157)	-	-	-	(193,157)

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. These fluctuations may be significant.

(a) Interest Rate Risk

The Company is exposed to interest rate risk to the extent that the cash bears floating rates of interest. The interest rate risk on cash and on the Company's obligations are not considered significant.

(b) Foreign Currency Risk

The Company's significant subsidiary is located in Ecuador which has adopted the US Dollar as its currency. The Company also maintains cash deposits in US Dollars with its Canadian bank. As such, the fluctuation of the Canadian Dollar in relation to the US Dollar will have an impact upon the profitability of the Company and may also affect the value of the Company's assets and the amount of shareholders' equity. The Company has not entered into any agreements or purchased any instruments to hedge possible currency risks. At September 30, 2014, 1 Canadian Dollar was equal to 0.89 US Dollar.

Balances are as follows:

	US $	CDN $ Equivalent
Cash	50,319	56,538
Amounts receivable	1,065	1,196
Accounts payable and accrued liabilities	(390,588)	(438,863)
Advances	(117,399)	(131,908)
	(456,603)	(513,037)

Based on the net exposures as of September 30, 2014 and assuming that all other variables remain constant, a 10% fluctuation on the Canadian Dollar against the US Dollar would result in the Company's net loss being approximately $46,500 higher (or lower).

Capital Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition and exploration of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain development of the business. The Company defines capital that it manages as share capital and cash. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.
